

## Reefer Bond Seal & Done Roof Sealant

### Description:

Reefer Bond Seal and Done roof Sealant is a professional grade one part, self-leveling roof sealant, formulated for a wide variety of roof sealing. It has quick cure and excellent weatherability. Reefer Bond Seal and Done is based moisture cure technology and reacts with moisture to form a strong yet flexible seal.

### Features and Benefits

- Solvent and isocyanate free, 100% solids
- Primerless bonding to most surfaces
- Odor Free
- Permanently elastic to -40°C
- Fast curing
- Paint compatible
- Non-flammable
- Provides water tight seal

### Physical Properties

- Consistency: Self-leveling fluid
- Basic Material: Proprietary Polymer
- Color:
- Odor: Nil
- Components: 1
- Type: Elastic
- Specific Gravity: 1.5
- Solvent Percentage: 0
- Isocyanate Percentage: 0
- Shelf Life: 12 months in unopened containers stored between 40° and 80° F.

### Approximate Performance Properties

Tensile Strength	140 psi (7 day ambient cure)	ASTM D-412
Elongation at Break	535 %+ (7 day ambient cure)	ASTM D-412
Hardness Shore A	35 (14 day ambient cure)	ASTM C-661
Initial Skin Forming	25 minutes	
Accelerated Weathering	No cracking	No change in physicals
Stain Testing	No Staining	
Low Temperature Flex	-20°	ASTM C-711
Service Temperature	- 40° to 200° F, temporarily resistant to 390° F	

### Packaging Options

20oz Sausage
